

Why use the GSA contract?

Purchasing from a GSA contract offers the following advantages over procuring on the open market:

- ✓ Competitive bidding is not required because the GSA contract meets the [Competition Act of 1984 \(CICA\)](#) requirements. *This can save your company time and money on administrative and technical staff hours required for a competitive bid process.*
- ✓ GSA has determined prices under GSA contracts to be fair and reasonable. *You are guaranteed our lowest price for all of our services listed on our [GSA contract GS-07F-0288Y](#).*
- ✓ GSA contracts have been awarded in compliance with all applicable laws and regulations.
- ✓ GSA contracts offer a wide selection of state-of-the-art commercial supplies and services.

Which government agencies are eligible to use the GSA contract?

For a specific list of eligible government agencies go here: [Eligibility to Use GSA Sources of Supply and Services](#)

Is the service you need currently listed on BRL's GSA Contract?

Take a look! [Brooks Rand Labs GSA Contract GS-07F-0288Y](#)

If you do not see the service you are looking for or have any questions please send us an email GSA@brooksrands.com or call 206-632-6206 and our technical staff will help you.

How to Use the GSA Contract?
