Betty Vordahl

Project Manager

Primary Responsibilities

Detailed review of log-in paper work, frequent updates of information (client, project, work order) in LIMS, occasional phone/email communication with our clients, daily interactions with the Project Management Team and other lab staff, daily generation of reports of analytical results (including review of analytical data and generation of detailed reported narration), and maintenance of individual financial projections and updates to Client Resource Management software (Microsoft) for assigned PMs. Assist others in the Project Management Team with daily tasks. Also, help with quote requests and administrative duties as needed.
